

IISC

04 September 2025

Influence Quotient: 62/100

Overall Evaluation Summary

Qualitative Analysis - Positive

- You demonstrated a strong educational background by pursuing M.Tech in AI from IISC, showcasing dedication to your field.
- Your involvement in projects related to large language models and privacy protection indicates a proactive approach to emerging technologies.
- Expressing an interest in the technology industry through your question about Google's MR headset shows your engagement with current market trends.

Qualitative Analysis - Areas of Improvement

- You should provide more detail when discussing your projects, such as specific contributions or outcomes, to better illustrate your skills and experience.
- When asked about strengths, your response was unclear and did not directly address personal strengths; consider highlighting specific skills or traits relevant to the role.
- Your listed weakness lacks depth; aim to offer a more professional insight into your challenges and how you're working to overcome them.
- Include more professional hobbies or activities that align with the role to provide a well-rounded view of your interests related to AI and technology.
- Clarify your question for the potential employer—ensure it aligns better with your field of interest or the role you're applying for to demonstrate focused engagement.

Detailed Evaluation Metrics

No.	Items to look out for	5 point Scale	Remarks / Feedback
1.	Did the speaker speak with confidence? • Posture • Smile • Eye Contact • Energetic Start	3	Satisfactory Satisfactory Good Poor
2.	Did the speaker vary their tone, speed, volume while delivering the speech/presentation?	2	Your tone was consistent, and volume was steady. However, maintaining a slightly slower and varied pace could enhance delivery.
3.	Did they use any gestures with their hands or body while speaking?	2	Your gestures were not overtly described, suggesting that more dynamic body language might have been beneficial to highlight key points.
4.	Did they have expressions on their faces?	3	Your expressions included moderate eye contact and smiling, indicating a reasonable level of engagement, though more enthusiasm could have been displayed.
5.	Did the speech have a structure of Opening, Body and Conclusion?	3	The speech had a clear introduction and body but lacked a strong concluding summary or closing statement.
6.	Did the speaker keep the presentation engaging by adding relevant examples, anecdotes and data to back their content?	3	You included some examples related to AI, but integrating more varied anecdotes or specific data could enhance engagement.
7.	Was the overall "Objective" of the speech delivered clearly?	3	The objective of seeking a role as an Applied AI Scientist at Google was clearly communicated, though a deeper exploration of what makes you uniquely fit for this role could add clarity.
8.	Was the content of the presentation/speech to the point, or did it include unnecessary details that may have distracted or confused the audience?	3	The content was mostly concise and relevant, but could have benefited from trimming down the personal hobby explanation to maintain focus.

9.	Was the content of the presentation/speech relevant to the objective of the presentation?	3	The content largely aligned with the objective, centering on your qualifications and aspirations, though additional linkage to specific role requirements would be helpful.
10.	Was the content of the presentation/speech clear and easy to understand?	3	The presentation was generally clear and understandable, although some explanations of complex projects could have been simplified further.
11.	Did the speaker demonstrate credibility? Will you trust the speaker?	4	You demonstrated credibility through your academic background and project experiences, which positions you well for the role.
12.	Did the speaker explain how the speech or topic of the presentation would benefit the audience and what they could gain from it?	3	Benefits to Google from your expertise were implied but could have been more explicitly linked to how your skills would be advantageous to their objectives.
13.	Did the speaker make an emotional connection with the audience ?	2	There was limited emotional connection; focusing more on passionate expressions of your interests could have enhanced this connection.
14.	Overall, were you convinced/ persuaded with the speaker's view on the topic?	3	Your view on the topic was somewhat persuasive, but could use more enthusiasm and specific relationship to Google's goals for greater impact.
