

IISC

04 September 2025

Influence Quotient: 62/100

Overall Evaluation Summary

Qualitative Analysis - Positive

- You expressed a clear ambition and alignment by mentioning your dream company, Google, and the specific role you are applying for, which reflects goal-oriented thinking.
- You have demonstrated educational and technical prowess by mentioning your M.Tech in AI from a prestigious institution like IISC and your experience with projects related to LLM and CNN.
- You showed a balanced personality by sharing personal interests such as reading, coffee, and sports enthusiasm, which can contribute to a well-rounded team dynamic.

Qualitative Analysis - Areas of Improvement

- Consider providing more detailed and relevant responses to questions about your strengths and weaknesses, especially in a professional context, as this can better reflect your suitability for the role.
- You could elaborate more on your technical skills and projects by mentioning specific technologies or results achieved, to provide a clearer understanding of your expertise.
- Your answer to the strengths question was somewhat unrelated; try to align your strengths directly with the job role to effectively showcase your value addition.
- The way you addressed your hobbies can be improved by linking them to how they help you in your professional or educational life, making them more relevant to the interview.
- When asking questions to the interviewer, particularly technological ones like about the MR headset, ensure they highlight your interest in the company's innovative culture rather than just comparisons.

Detailed Evaluation Metrics

No.	Items to look out for	5 point Scale	Remarks / Feedback
1.	Did the speaker speak with confidence? • Posture • Smile • Eye Contact • Energetic Start	3	Satisfactory Satisfactory Good Poor
2.	Did the speaker vary their tone, speed, volume while delivering the speech/presentation?	3	You maintained a generally good tone and volume, but there were moments where varying the speed could have added emphasis to key points.
3.	Did they use any gestures with their hands or body while speaking?	2	It appears that your use of hand or body gestures was minimal. While it's important to feel natural, more dynamic gestures could have enhanced your message delivery.
4.	Did they have expressions on their faces?	3	Your facial expressions, including eye contact and smiles, were fairly consistent, showing engagement. However, starting with more energy could enhance the overall impact.
5.	Did the speech have a structure of Opening, Body and Conclusion?	3	The speech had a basic structure, introducing yourself and covering projects and personal interests, but it could benefit from a clearer conclusion to wrap up your points.
6.	Did the speaker keep the presentation engaging by adding relevant examples, anecdotes and data to back their content?	3	You included some personal interests and hobbies, which provided insight into your character, but adding more detailed examples or narratives related to your AI work could significantly heighten engagement.
7.	Was the overall "Objective" of the speech delivered clearly?	3	The objective of explaining your aspirations and projects was clear, though reinforcing your motivations and goals regarding the position at Google a bit more could add emphasis.

8.	Was the content of the presentation/speech to the point, or did it include unnecessary details that may have distracted or confused the audience?	3	The content was mostly relevant, though the mention of your weakness for sweets slightly deviated from the professional focus.
9.	Was the content of the presentation/speech relevant to the objective of the presentation?	3	Your content was largely relevant to your field and the role you're applying for; however, tightening the narrative around AI applications might enhance focus.
10.	Was the content of the presentation/speech clear and easy to understand?	3	The presentation was generally clear and understandable, but aligning your strengths more closely with your career goals could add clarity.
11.	Did the speaker demonstrate credibility? Will you trust the speaker?	3	You demonstrated credibility by mentioning your educational background and projects, which suggests competence; however, providing more case-specific details could enhance trust.
12.	Did the speaker explain how the speech or topic of the presentation would benefit the audience and what they could gain from it?	3	You briefly touched on the potential impact of your work on AI security, hinting at benefits, yet more explicit statements regarding audience benefits would strengthen the presentation.
13.	Did the speaker make an emotional connection with the audience ?	2	There was limited emotional connection, as the focus was more on factual delivery; adding personal stories or passion-driven anecdotes might make it more relatable.
14.	Overall, were you convinced/ persuaded with the speaker's view on the topic?	3	While your focus on AI and specific technologies was informative, a stronger articulation of your passion and vision may bolster persuasive appeal.
