

Ayush Mishra
21 August 2025

Influence Quotient: 74/100

Overall Evaluation Summary

Qualitative Analysis - Positive

- You provided clear and concise responses to questions
- You shared impressive details regarding your background and qualifications, including your M.tech in AI from IISC and your projects on LLM, CNN, and PCI shift
- Your enthusiasm for the applied AI Scientist position at Google, your dream company is commendable

Qualitative Analysis - Areas of Improvement

- You could improve on displaying more of your personality. Although sharing your hobbies gives some insight, more personal examples related to your work ethic or professional experiences could create a more well-rounded impression

- The briefness of your responses may seem concise to some, but they may also be perceived as too brief. Expanding upon your answers will help to showcase more of your skills and experience
- While you mentioned working on the LLM project, you didn't go in depth about the project. More details about the project could be beneficial
- When stating your weakness, it's beneficial to include steps you're taking towards improvement. For example, mention how you moderate your sweet intake to stay healthy or focused
- Your response to your strengths could highlight more about how your strengths benefit your professional performance. Do not hesitate to openly discuss relevant soft skills like teamwork, critical thinking or dedication

Detailed Evaluation Metrics

No.	Items to look out for	5 point Scale	Remarks / Feedback
1.	Did the speaker speak with confidence? • Posture • Smile • Eye Contact • Energetic Start	3	Satisfactory Satisfactory Good Poor
2.	Did the speaker vary their tone, speed, volume?	3	Your tone and volume were consistent, but you could maintain a more varied speed to enhance delivery.
3.	Did they use any gestures with their hands or body while speaking?	3	You did use some gestures, though they were limited; maintaining good posture and eye contact supported your message.
4.	Did they have expressions on their faces?	3	You had some expressions, especially noticeable were your occasional smiles.
5.	Who are you and what are your skills, expertise, personality traits ?	4	You introduced yourself well, covering your educational background, projects, and interests.
6.	Why are you the best person to fit this role?	3	You highlighted relevant skills and experiences, particularly your work on security in AI, but could strengthen your connection to the specific role.
7.	How are you different from others?	4	You emphasized your unique experience with large language models and security, highlighting a niche expertise.
8.	What value do you bring to the role?	4	You bring expertise in AI and a focus on security, which is valuable for this role in Applied AI.
9.	Did the speech have a structure of Opening, Body and Conclusion?	2	Your speech lacked a clear structure and could benefit from a more defined opening, body, and conclusion.
10.	How was the quality of research for the topic? Did the student's speech demonstrate a good depth? Did they cite the sources of research properly?	3	Your research depth seemed moderate, though you did not explicitly cite sources, more examples could enhance your credibility.
11.	How creatively did the student present the video?	2	The presentation lacked creative elements; integrating more engaging content or stylistic elements might improve it.

12.	How convinced were you with the overall speech on the topic? Was it persuasive? Will you give them the job/opportunity?	3	The speech was informative but not very persuasive. To secure the job, your pitch could be more compelling and tailored to the role.
